

# Start saving with an employer-provided transit benefit!

Communities thrive when more people take transit. And when it comes to savings, the numbers add up.

A household can save more than \$13,000 per year taking transit.

Your employer can help you save by providing an ORCA transit pass through the ORCA for Business Program.

## Two ORCA for Business Programs to choose from

### Business Choice

Businesses decide which employees receive an ORCA card and the dollar value to load.

### Business Passport

An all-inclusive annual transportation pass program designed for groups of 5 or more employees.

**Ready to save?**

Use our script on the back to ask your employer about ORCA for Business today!

Hello, *[Name]*,

I wanted to share an opportunity for *[business name]* to save money through tax deductions, help employees save money, and offer more competitive benefits.

I use public transit to commute to work and travel locally. An ORCA pass provided by *[employer name]* would make taking transit even more affordable.

ORCA for Business offers several options, which include:

- **Unlimited annual transit passes for as little as \$30 per employee\***
- **Employee pre-tax deductions to save on taxes**
- **Flexible plans tailored to business needs**

Community Transit offers free support to help businesses learn more about these programs. Can we explore offering transit benefits for employees?

More information is available at [ctgo.org/orcaforbusiness](https://ctgo.org/orcaforbusiness) or by emailing [ORCABusinessAccounts@commtrans.org](mailto:ORCABusinessAccounts@commtrans.org).

Thank you,  
*[Your Name]*

## Ask your employer about pre-tax benefits

Even if your employer doesn't offer ORCA for Business benefits, you can still save. Ask your employer about pre-tax deductions for your transit expenses.
