Explore Bothell by Bike or Foot

Getting around your neighborhood is easier than you may think – check out all the great places you can go! The map below shows you how long it would take to bike and walk to destinations around your community. You can also visit walkscore.com to see travel time estimates similar to the map below from any location.

You’re in the center of a thriving community, with lots of choices for places to shop, eat and play! Use this guide to explore your neighborhood and find ways to get around with ease by riding the bus, biking and walking.

Bike

Bicycling is a great way to combine the trips you need to take with your workout. A casual ride might be a great option when you need to run errands – but it’s so easy to walk everywhere in downtown, with lots of options for food, shopping and more! – Sandy, Downtown Bothell Employee

Bike Tips
- Be Safe, Be Seen – If you’re going to be outside in dark or poor weather conditions, wear bright clothing, reflectors or even bring a flashlight. All of these will help you be more visible to drivers who might not see you.
- Be Aware of Your Surroundings – Look both ways before crossing the street even if you have the right of way. Make eye contact with drivers before crossing. Be especially cautious of driveways and intersections.
- Walk with traffic – if there are subways or pathways on your route, the rules of the road say you should walk on the left side, facing traffic. This way, you can see the traffic coming, establish eye-contact with the driver and make quick judgments to protect yourself.

Walking

With tools of trades and many choices for entertainment at your fingertips, your neighborhood is a great place to leave the car behind and step on those walking shoes. According to the American Heart Association, walking just 30 minutes 5 times a week is enough to improve your overall health and reduce stress.

Walking Tips
- On a walk,
- In your neighborhood
- Ride a bike
- Go for a run
- Take public transportation
- Walk with traffic
- Wear bright clothing
- Reflectors or even bring a flashlight
- Make eye contact with drivers before crossing
- Be especially cautious of driveways and intersections
- Establish eye-contact with the driver
- Make quick judgments to protect yourself

Bicycling Tips
- Remember, You’re A Vehicle – Obey all traffic laws, including stop signs and lights. Sidewalks vary by city, but that’s what you’re doing too!
- Bike & Pedestrian Safety – Be visible, be courteous and considerate.
- Share the Trail – Let others know where you’re going and signal your intentions.
- Riding in a group, the whole group is impacted by the decisions of the first rider. Riders on the left side make it easier to see, but it can also be more dangerous. Consider riding in single file if you’re unsure of what’s coming.
- Be Aware of Your Surroundings – Look both ways before crossing the street even if you have the right of way. Make eye contact with drivers before crossing. Be especially cautious of driveways and intersections.
- Walk the traffic – if there are subways or pathways on your route, the rules of the road say you should walk on the left side, facing traffic. This way, you can see the traffic coming, establish eye-contact with the driver and make quick judgments to protect yourself.

Buses in your neighborhood
