Edmonds – How do you get around your neighborhood?

You’re in the center of a thriving community, with lots of choices for places to shop, eat and play! Use this guide to explore your neighborhood and find ways to get around with ease by riding the bus, biking and walking.

Bike

To make the most of the trip, you’ll need to combine the tips you need to take with your second. A basket, saddlebag or a simple backpack can make it to your bike easier. For longer trips, consider combining your bike trip with the bus.

Cycling Tips

- Remember, You’re a Vehicle – Obey traffic laws, including stop signs and lights. Ride with the flow of traffic, not against it, but for pedestrian and cyclist safety, riding on the road is recommended. A working headlight is required for night riding as well as a flashing light on a red tail light.
- Plan Your Route – Use the map to plan your route in advance and try out different routes to find the best one for you.
- Signal your Intentions – Let other cyclists, pedestrians, and motorists know where you’re going by using the same signals you do in a car. Slow down and look both ways when the trail crosses roads or driveways.
- Share the Trail – Alert others when passing by using your voice or a bell. Slow down and look both ways when the trail crosses roads or driveways.
- Ride Predictably – Don’t weave between parked cars. Riding a constant line on the right side of the travel lane helps drivers see you and know what to expect. Use the entire lane if you intend to ride all the way to your destination.
- Wear a Helmet – The City of Edmonds doesn’t require helmets for adult riders, but nearly everyone and all of King County Cycle tracks, plans to get there if you.
- For more information on how to take your bike on the bus, rent a bike locker, or discover rules and best practices of safe cycling, visit communitytransit.org/bikes

Walk

With 14 miles of trails and many chances for water activity at your fingertips, your neighborhood is a great place to leave the car behind and step on those walking shoes. According to the American Heart Association, walking just 30 minutes, 5 times a week is enough to improve your overall health and reduce stress.

Walking Tips

- Be Safe, Be Seen – If you’ll be outside in dark or hard to see conditions, it’s helpful to wear light-colored clothing, reflectors or even bring a flashlight. All of these will help you be more visible to drivers who might not see you.
- Be Aware of Your Surroundings – Look both ways before crossing the street even if you have the right-of-way. Make eye contact with drivers before crossing. Be especially cautious of driveways and all intersections.
- Watch for Traffic – If there are sidewalks or pathways on your route, the rules of the road you should watch on the left side, facing traffic. This way, you can see the traffic coming, establish eye-contact with the driver and make quick judgments to protect yourself.

“You can’t beat a long walk along the waterfront, or a walk-on ferry to Kingston—the views are spectacular!” – Victor, Edmonds resident

Bus

You can’t take the bus, there’s another option – let us drive for you! Running 365 days a year, buses run on a variety of local and regional destinations.
