**Explore Bothell by Bike or Foot**

Getting around your campus is easier than you may think—check out all the great places you can go! The map below shows how long it would take to bike and walk from the Bothell Campus to destinations around Bothell. You can also visit walkcore.com to see travel time estimates similar to the map below from any location.

**Bicycling**

Bicycling is a great way to combine the trips you need to take with your coursework. A locked, well-maintained bike can make a trip to the store a breeze! For longer trips, consider combining your bike ride with the bus.

- **Remember, You're a Vehicle**—Obey all traffic laws, including stop signs and lights. Sidewalk lanes vary by city, but for pedestrians and cyclists safety, riding on the road is recommended. A working headlight is required for night riding and a rear light is a must. A bike helmet is always recommended.
- **Plan your Route**—Use the map to plan your route or navigate using a ride-sharing app like Google Maps. You can also find a ride-sharing app at the U-Pass information desk located on the UW Bothell Campus in Husky Hall.
- **Ride Predictably**—Don't weave between parked cars. Riding a consistent line on the right side of the travel lane helps drivers keep an eye on you and know where you're going—always signal before a turn.
- **Share the Trail**—Alert others when passing by using your voice or a bike bell. Drive down and look both ways when the trail crosses roads or driveways.
- **Signal your Intentions**—Let other cyclists, pedestrians, and motorists know where you're going by signaling before turning, passing or stopping.

**Walking**

Walkers can take advantage of easy access to businesses by foot or bike. A popular destination is McMenamins Anderson School, which includes a hotel, brewery, swimming pool, and movie theater.

**University of Washington Bothell/Cascadia College — How do you get around your campus and neighborhood?**

The University of Washington Bothell and Cascadia College campus is the central hub for over 11,000 students, staff and faculty, and is the heart of a growing downtown community. Use this guide to explore your neighborhood and find ways to get around with ease by riding the bus, biking and walking.

**Explore Bothell by Bike or Foot**

Downtown Bothell offers numerous restaurants, coffee shops, and movie theaters. A newly renovated main street and multi-use bikeway is a pedestrian and cyclist haven, encouraged, as this family-friendly trail attracts joggers, dog-walkers and nature-lovers of all ages.
